

College Low-Cut Regal Styles For Young Men

In our latest shipment of new Regal styles for Spring and Summer are several ultra-fashionable low-cut models especially designed for young men. These swagger shoes reproduce the extreme fashions for this season, and are now being worn extensively by college men at all the leading universities.

REGAL SHOES

always give you the latest advance styles—and we always get these styles as soon as they are produced by the Regal factories. Another distinct advantage of our Regal low-cuts—they are made on special Oxford lasts, not on regular high-shoe lasts as are ordinary Oxfords. This insures smooth, snug fit at the heel and around the ankle. Regal Oxfords never chafe, or gape at the sides. Moreover, Regal quarter-sizes insure an exact, comfortable fit which you don't get in other shoes.

GOT SO BAD STAYED IN BED

An Ingram Lady Says She Got So Bad, She Had to Stay in Bed Until Released by Cardui.

Ingram, Tex.—"I have suffered from womanly trouble ever since I first became a woman," writes Mrs. E. M. Evans, of this place.

"Last fall, I just got so bad, I had to stay in bed, for nearly a week every month."

"I suffered with a pain in my left side and in my back, but since I have taken Cardui I feel better than I have for years."

Cardui acts on the woman organs, and helps the system to regain its normal state of health, in a natural way.

It is a pure, vegetable extract, that has no severe medicinal action, but acts mildly, as a curative medicine should act, and therefore can have no bad after-effects.

You can rely on Cardui. It is prepared for women and not for men. It relieves pain by acting on the cause, and builds up womanly strength where it is most needed.

If your druggist is a friend, ask him confidentially if he recommends Cardui. He will tell you the truth. It is a good medicine. Try it.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga, Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper on request.

DEMAND FOR FOOD IS HEAVIER, BUT THE ANIMAL SUPPLY IS GROWING SMALLER

Very Big Decrease in Total of Cattle, Sheep and Swine Is Shown, With a 12,000,000 Population Increase.

Washington, D. C., March 30.—Further details of the collection of statistics regarding the meat supply of the United States, preliminary announcement.

Time is the Test

The Testimony of El Paso People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

El Paso people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make this statement, which follows unless convinced that the article was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for.

Mrs. H. F. Stacy, 2717 East Missouri street, El Paso, Texas, says: "Over two years have elapsed since I publicly testified in favor of Doan's Kidney Pills, but I have had no reason to change my high opinion of this remedy. Doan's Kidney Pills entirely relieved me of backache and other symptoms of kidney trouble from which I suffered a great deal. I gladly confirm all I said in favor of this remedy and I advise other kidney sufferers to procure a supply at Kelly & Pollard's drug store and give it a trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

ment of which showed a large decrease in the population of the country and a decrease in the supply of hogs and beefs, are made public.

The number of food animals in the United States, has decreased 5,000,000 since 1901, and the number of consumers has increased 12,000,000 in the same time.

The term "food animals" includes in this instance all cattle, sheep and swine in the United States, as estimated by the department of agriculture, and the term "consumers" includes all of the population as estimated by the census.

Cattle Figures.

The department of agriculture's figures put the total number of cattle in the United States on Jan. 1, 1901, at 62,333,000; sheep, 59,750,000, and swine, 57,000,000, a total of 179,083,000. For Jan. 1, 1910, the estimate is: Cattle, 63,000,000; sheep, 57,250,000, and swine, 47,750,000, a total of 168,000,000, a decrease of 11,083,000 in the aggregate of the three groups of food animals. The census estimates the population of the United States on June 1, 1901, at 77,647,000, and on June 1, 1910, at 93,919,000, an increase of a little more than 16,000,000 in the population, while the number of food animals was declining about 5,000,000. This makes the total number of food animals to each 100 persons in 1901, 221, and in 1910, but 193, a decrease of 16 percent in the number of food animals to each 100 persons residing in the United States.

Value of Food Animals.

In the meantime the total value of the food animals in the country has increased despite the reduction in number, the department of agriculture estimating the aggregate farm value of the 179,083,000 cattle, sheep and swine in 1901 at \$1,942,000,000, and the aggregate farm value of the 168,000,000 in 1910 at \$2,368,000,000. This gives an increase in the aggregate value of 22 percent, while the number was declining a little less than 3 percent, the increase in the average farm value per

animal of the entire number of food animals being 25 1/2 percent.

The one class of food animals which shows an actual increase in the period in question is cattle, of which the number in 1901 was 62,333,000, and in 1910, 63,000,000, an increase of about 11 percent, while the population was increasing about 16 percent. The farm value of cattle in 1901 is put at \$1,411,737,080, and in 1910 at \$1,697,761,000, an increase of 24 percent in value, while the number was increasing about 11 percent. The average farm value per head of all cattle is given in 1901 at \$22.65, and in 1910 at \$24.58, an increase of but 8 1/2 percent in value per head on the farm. In the markets, however, beef prices showed a much larger advance, the New York wholesale price of "family beef," as shown in reports to the bureau of statistics, department of commerce and labor, being \$12.50 per barrel in the first week of January, 1901, and \$15 per barrel in the first week of January, 1910, an increase of 28 percent, while the farm value of cattle, according to the figures of the department of agriculture was up 24 percent.

Statistics on Hogs.

The number of swine in the United States is stated by the department of agriculture figures at 56,982,142 in January, 1901, and 47,750,000 in January, 1910, a decline of 9,232,142. The value in 1901 is reported at \$352,012,143, and in 1910 at \$426,603,000, an advance of 24 percent in farm value, while the average price per head on the farm in 1901 was \$6.20, and in 1910, \$9.12, an increase of 47 percent in the per capita value. In the meantime the New York wholesale price of "mess pork, new," as reported to the bureau of statistics, advanced from \$12.25 per barrel in the first week of January, 1901, to \$24.75 in the first week of January, 1910, an increase of 87 percent; and lard is quoted in the same reports at 7.4 cents per pound in January, 1901, and 13 cents per pound in January, 1910, an advance of 75 percent.

Sheep.

The number of sheep decreased according to the department of agriculture figures from \$2,756,718 in January, 1901, to \$1,516,000 in January, 1910, a decrease of 45 percent. The farm value is estimated at \$178,072,476 in 1901, and \$232,664,000 in 1910. The value increased 31 percent, while the number was decreasing 43 percent. The increase in farm value per capita being from \$2.98 to \$4.08, an increase of 37 percent; the New York price of a standard grade of wool (Ohio XX) having increased in the meantime from 26 cents per pound in January, 1901, to 37 cents in January, 1910, an advance of 42 percent.

At the meantime prices of grains show similar advances. The quoted price of corn in the New York market in the first week of January, 1901, was, according to the bureau of statistics, figures, 45 3/4 cents per bushel, and in the first week of January, 1910, 71 1/4 cents per bushel, an advance of 56 percent; on oats, in January, 1901, 28 1/2 cents per bushel, and in January, 1910, 49 1/2 cents, an advance of 75 percent; of wheat, in the first week of January, 1901, 81 cents per bushel, and in January, 1910, \$1.30 per bushel, an advance of 60 1/2 percent.

NEW BUILDINGS FOR PORTALES

Work Started on Two Structures—New Postoffice Established.

Portales, N. M., March 30.—The Warren Porches company has let the contract to W. H. Snell for two store buildings, 20x100 and 30x100, and work has already begun on the foundation. The Joyce-Pruit company is erecting a store building 100x100 with an modern improvements. Portales also has a chance to have a new railroad. A new road called "The Tucuman-Portales and Gulf railroad," is being projected to extend from Tucuman to a connection with the Southern Pacific.

Those in charge of the drive are: Charles Reynolds, Roy Lovelace, J. B. Harris, Oscar Johnson, S. T. Shaw and J. W. Taylor.

The Portales drug store has an outfit of entirely new fixtures, including a new soda fountain to match its new quarters in the Lindsey-Oldham block. Prof. Tinsley, who is in the market for farmers at Pleasant View school house, made arrangements for five experimental products under his direction. Five farmers will put in cultivation five acres of land in need of fertilizer.

Two new postoffices have been established tributary to Portales. One is Pleasant View, in Chavez county, the other at Vermilion, what has been known as Boyd's store in the south

SUPERFLUOUS HAIR REMOVERS

The New York World, in Commenting Upon Unscrupulous Manufacturers of Them, Says:

"The fakes put on the market in the last 10 years have numbered their victims by the hundreds of thousands. Empty promises have been made by scores of promoters in the wild scramble to get the money. The marvel is that woman has not become so thoroughly disgusted as to reject all treatments for good."

"But her hope for a remedy was not in vain, and the credit of coming to her assistance, fell to an American. Only a few years ago the now known De Miracle treatment was brought forth and it proved to be a revelation in modern science. A representative of the New York World investigated the discovery and the methods by which it was introduced to the public. He found exhaustive tests have shown it to be the long desired, practical, expeditious and safe way in which to destroy the growth of hair. Those who put it before the public knew the fallacy and dishonesty of publishing extravagant claims. They did not resort to any catch schemes, such as making a prospective customer a special offer of personal interest. They started in to win the confidence of those interested, and in this way they have been eminently successful. . . ."

What is more to the point, it has been increased by prominent physicians, representative medical journals and leading magazines, devoted to woman's cause. There is too much at stake to risk an endorsement if they are not true to the letter. Only the result of repeated chemical experiments and a thorough knowledge of the origin of all hair growth could stand against the investigation of such authorities. The De Miracle Chemical company is open and above board in every detail. The ingredients are not just claimed. A little probing on the part of the publisher disclosed the fact that they are published and sent broadcast with the identity and address of the writer, or publication added. This is the stumbling block of all so-called remedies. A reputable member of the medical profession or a publication in good standing could never afford to be identified with anything that savors of a fake, and the voluntary praise given through the channels of science, is not to be bought with money. It is given on the strength of conviction.

When so great and reliable a publication as the New York World publishes such facts as the above in reference to hair removers it should be sufficient to convince any one that De Miracle is the only absolutely safe, reliable and trustworthy hair remover ever offered the public. De Miracle is sold by Kelly & Pollard.

The complete article of the New York World and editorials of many other well known publications, with our Booklet containing testimonials will be mailed free in plain sealed envelope on request. Address De Miracle Chemical Co., Dept. 135, Park Ave. and 4th St., New York. Write for it today.

of the county. This matter is country postoffices supplied through Portales for the postal route.

Workmen and teams are leveling and beautifying the school campus; the first evidence of the practical work of the Teachers' and Mothers' club.

The county commissioners have granted right of way to the Irrigation company to put up its transmission lines along the public highways and section lines for the purpose of some trouble has been caused by farmers refusing right of way over their farms.

Dr. Burleson Statten has removed his office to 312, Colles Block, over "The White House," corner San Antonio and Oregon streets.

WOMAN INJURED IN RUNAWAY

Nogales Man Pours Oil on Clothing and Then Sets It on Fire.

Nogales, Ariz., March 30.—Mrs. E. Harris, with a serious accident, which resulted in a scalp wound and her back being injured. While out driving on Grand avenue, a motor cycle suddenly darted around a corner giving fright to her horse and causing him to run. She clung to the reins, but the horse lunged, thereby hurling the woman forward over the dashboard and she was dragged several yards before being assisted.

William Hilbard, aged 60 years, who had been an invalid for some time, died at the Arizona hotel, while sitting in his room, from the effects of a stroke of paralysis.

Mario Perez, living in Nogales, Sonora, attempted suicide, according to officials, by pouring coal oil on his clothing, then setting fire to himself. Assistance reached him in time to extinguish the flames before he was fatally burned.

F. Van Momick was elected to succeed himself as school trustee by a majority of 22 votes, there being no opposition.

WANT DEPUTY MARSHAL PLACED ON SALARY.

Globe, Ariz., March 30.—An effort is being made to have the deputy United States marshal for Gila county placed on a salary, as is the office in other counties of the territory.

The main reason for the move is the frequency of the violation of the federal laws regarding the selling of liquor to Indians, and the loss in the matter is being taken by L. M. Weaver, Indian agent at San Carlos.

The time of deputy marshal Harphan is taken up almost entirely with Indian cases, and as he receives only fees in the event of arrests, he is usually behind financially at the end of the month. It is believed here that much better work could be done in preventing the sale of liquor to the government's wards if the deputy were placed on a straight salary.

CLOVIS PLANTS TREES.

Clovis, N. M., March 30.—Tree planting is very much in order in Clovis. Hundreds of citizens have planted both trees and grass about their homes, on vacant city lots, and as a result the city looks like a new forest grove. The farmers from near town have reaped quite a harvest from the sale of trees from their fore-planted trees.

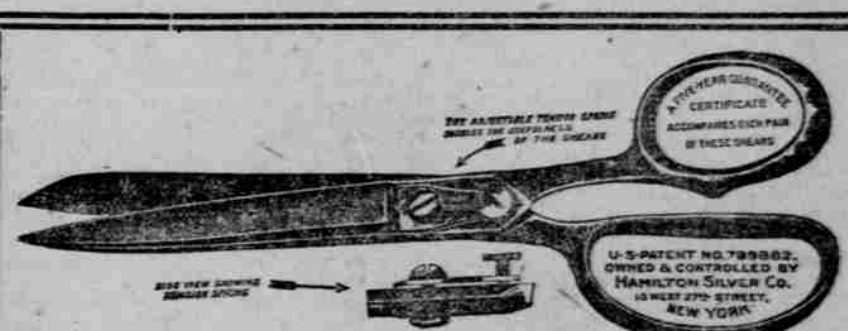

Four years ago, to city residents were want such as can be replanted with the least amount of exposure. Every day dozens of large trees are brought into Clovis and sold on the streets.

Mrs. W. H. Hendricks, of San Antonio, Texas, guest of Mrs. J. E. Turberville, of 783 North Florence, leaves today for her home.

NACO NOVES.

Naco, Ariz., March 30.—The spring roundup has commenced in Sonora, Mexico.

Ida Moss, a negro, lost a purse containing \$30 as she was going to work. Naco is looking for a restaurant. The building occupied by the Cow Ranch cafe for several years, and now owned by John Townner, is being renovated and refitted.

WE GIVE THEM FREE WITH A \$5.00 PURCHASE

YOU CAN GET A PAIR FREE OF CHARGE.

Why are we doing this may arise in your mind. We have to spend so much money each year advertising in newspapers, so we decided to give something of value direct.

Our buyer, while in New York recently, was looking around for something that would be of special value to all women keeping house, and he found these Patent Self Sharpening Shears, and seeing their superiority over the old shears, our buyer bought a large quantity of them direct, to give them away with a \$5.00 purchase to women only. This offer will hold good until April 15th. You don't have to trade the full amount of \$5.00 at one time. These shears are first-class and every pair guaranteed by the maker, through our store.

Don't fail to get a pair of these Patent Self Sharpening Shears. Call the clerk's attention to this ad. when you are trading and you can see the shears at any time when in the store. Remember they cost you nothing.

HOTEL ENGINEER IS BURNED

BY EXPLODING STEAMPIPE

Pettis Stanfield, night engineer at Hotel Orndorff, was painfully scalded in

an accident in the boiler room early last night.

While the engineer was firing the engine, a feed pipe under the boiler broke, shooting a cloud of steam into the man's face. The engineer sustained burned hands and knees, and a scalded right shoulder besides injuries about the face and head. Fortunately his eyes were not injured.

JUDGE MAXEY HERE FOR

APRIL TERM OF COURT

Judge T. S. Maxey, accompanied by Mrs. Maxey, arrived in the city this morning from Del Rio, Tex., and will convene the April term of the federal court here Monday morning.

W. H. Long, stenographer, and deputy marshal Charles Stevens also arrived this morning from Del Rio, United States attorney Charles A. Horton and marshal Eugene Nolte will arrive Sunday.

CARS DERAILED AT ANAPRA.

As a result of the derailment of a freight car near Anapra, west of El Paso yesterday afternoon, Nos. 10 and 2 on the S. P. arrived in El Paso two hours late last night.

ONE DOSE ENDS INDIGESTION, GAS, HEARTBURN OR STOMACH HEADACHE.

Relief in five minutes Awaits every man or woman who suffers from a bad Stomach.

Why not get some now—this moment, and forever rid yourself of Stomach trouble and Indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapiesin to start the digestive juices working. There will be no dyspepsia, or belching of Gas or eructations of undigested food; no feeling like a jump of lead in the stomach or heartburn, sick headache and Dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapiesin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate

case of Indigestion and Upset Stomach in five minutes.

There is nothing else better to take Gas from Stomach and cleanse the stomach and Intestines, and, besides, one single dose will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapiesin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all Stomach Misery is waiting for you as soon as you decide to take a little Diapiesin. Tell your druggist that you want Pape's Diapiesin, because you want to become thoroughly cured this time.

Remember, if your stomach feels out-of-order and uncomfortable now you can get relief in five minutes.

Bebelama Colony

The Paradise of the Pacific

Best Irrigated Area In Mexico

The International Realty Company of Mexico City

has bought, and offers for sale, 66,000 acres of the choicest River bottom alluvium at "Bebelama," State of Sinaloa, Mexico.

Abundant water from the Sinaloa River is delivered to each purchaser at the highest point on his land. Land also fronts on ocean shore and two harbors afford facilities for ocean transportation by coasting steamers.

Everything that one can expect to raise in this latitude can be grown profitably here. Three crops of some kinds, if desired, and alfalfa, about ten cuttings.

Climate is ideal. Trade wind tempers summer heat, while nearness to ocean prevents frost and mean range of temperature is but 20 degrees, 60 to 90 degrees Fahrenheit. Elevation 20 to 40 feet above sea level.

Property lies about fifteen miles below the Bamon, or Naranja Stations of the R. Y. C. and Pacific Railway, to which a spur track will be built, affording the best and lowest rates for freights and fares.

To those buying now, these lands will be sold at bed rock price of \$20.00 U. S. Currency per acre, payable in three installments, one-third cash, balance in one and two years with 8% per annum interest on deferred payments. All of the water required for irrigation of each tract will be furnished by the Bebelama Water Company at price of \$2.00 U. S. Currency per acre per annum perpetually.

General Henry Ide Willey, the distinguished Irrigation Engineer, in his report upon this project, states that:

"In all respects it presents phenomenally favorable features, nothing equalling it has ever been found by me in all my extensive experience."

The land is divided into tracts of about 80 acres each, or 250x1000 meters, and not less than 30 acres can be bought until the contemplated Town Sites are segregated.

For information concerning this land apply to
